

How to Use HandBrake to Compress Video Files

Download HandBrake

1. Navigate to the main <u>HandBrake</u> page and then click on the download button.

Download HandBrake 1.2.0 For Mac OS X 10.10 or later

- 2. From the download page, follow the download and installation instructions.
- 3. For detailed installation instructions, refer to the HandBrake Installation Guide.
- 4. After installation, launch HandBrake and then follow the instructions in the next section.

Compress Video Files

Handbrake is a feature rich application that can be configured in many ways. This document describes the simplest way to use HandBrake. You can visit the <u>HandBrake documentation</u> page if you would like to learn about other HandBrake features and options.

- 1. Open HandBrake. By default, the application opens in the Source Selection screen.
- 2. Navigate to your video file in the Finder.
